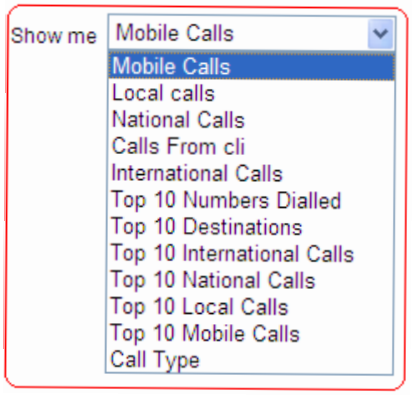
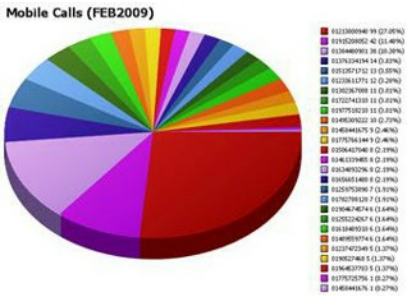
# Netbills - Online Portal

- All Invoices held on-line for easy retrieval.
- Simple, easy to use reporting tools.
- Separate your mobile and land line traffic for easy cost analysis.
- Assign names to numbers for easy reference.
- Help protect your self against fraud.





Netbills allows you to view your telecoms outbound costs up to the previous working day. This means you won't have to wait for your monthly invoice to arrive before you can start analysing your call costs.
With Netbills you can create your own reports based upon criteria you set, such as the most expensive calls made, international calls, calls to mobiles or calls made outside working hours, for example. Reports can be downloaded as a csv file which can be viewed and manipulated in excel or the csv can be automatically emailed to you.
